ZAŠTITA - Croatian journal for protection and safety of people and possessions

Zaštita (Protection) journal is the first and so far the only Croatian independent journal covering protection and safety of people and property. For the last ten years we have been bringing the latest news from international and domestic safety and security sector, with special attention to physical and technical protection, analyzing technological novelties and current situation in the market of video surveillance and alarm systems among others. We discuss topics of key importance to the whole security industry in an expert manner, which is still acceptable and appealing to the general public. Zaštita is a monthly journal. Based on the knowledge and experience of the Zaštita editorship, a new journal Svet bezbednosti was created, which is issued 4 times a year by Tectus d.o.o. Belgrade for Serbian, Montenegrin and Macedonian markets. The goal of Svet bezbednosti journal is covering the latest news in the field of security in Serbia, the region and world.

INTERNET PORTAL

Zaštita internet portal has a large number of readers from the entire security industry, not only in Croatia, but also in neighboring countries such as Slovenia, Bosnia and Herzegovina, Montenegro, Serbia and Macedonia. Our readers are from all of the links in safety and security chain – from guards, policemen, firemen and soldiers to top management, from security managers and experts to highest representatives of cities and counties, those are all who wish to get relevant information and valuable expert analyses needed for their day to day high-level jobs. Along with the Svet bezbednosti journal, Tectus company has initiated a new web portal www.svet-bezbednosti.rs, which brings daily news in the field of security in Serbia, the region and world.

BROCHURE WITHIN FINANCIAL LITERACY PROJECT

The editorship of Svijet Osiguranja and Zaštita are preparing a brochure intended for education of insurance product users for 2016. Secure Home (initial circulation 10,000 copies) is scheduled to be released in May 2016. With the support of Croatian Ministry of Interior, Center for crime prevention, this brochure is coproduced by editors of Svijet Osiguranja and Zaštita journals. Objective of the brochure is to inform citizens of security and protection of their home and belongings, as well as refunding the damage through insurance. The brochure will abound with useful information on prevention, protection and self-defense, for example about the need of building in anti-theft doors, installing surveillance cameras and alarm systems, as well as with advice on how to act in case of a burglary and other accidents that can happen in our homes – fire, flood, earthquake... A particular attention will be dedicated to households insurance and insurance of household belongings. The starting circulation is 10,000 copies. The brochure will be distributed in major police stations, offices for administrative affairs with citizens, and prevention centers. Considering the usefulness, accessibility and high circulation, we believe that you will find interest in advertising and presenting your products and services in this brochure.

CROATIAN NETWORK OF URBAN SECURITY STAKEHOLDERS - CNUSS

HOLDERS - CNUSS is an association whose main objective is to promote, develop and improve the integral vision of security, with special emphasis on the key role of local authorities in crime prevention. The Association achieves its objectives through:

- Connecting people and organizations of the same interest that are dealing with activities of urban (public) safety
- Informing the public about important issues in the field of its activity
- Establishing cooperation with national authorities and chambers
- Developing a program of international cooperation and involvement in the work of other similar associations in foreign countries
- Promotion of European professional certificates and diplomas (the European Executive Master in Urban Security)
- Promotion of professional education programs and lifelong learning in line with the European recognized practice
- Establishing cooperation with the Ministry of Interior of the Republic of Croatia, Croatian Ministry of Defense, the National Protection and Rescue Directorate of the Republic of Croatia
- Establishing cooperation with UNDP, NATO
- Establishing cooperation with international and national professional and economic associations and developing programs of international cooperation,
- Organizing counseling, seminars, roundtables and other professional and educational conferences in the field of safety

CONFERENCES & SEMINARS

11 February 2016

1st international conference Security in Retail – SIGShop 2016

According to global research in retail, the costs caused by theft annually amounts to 112 billion Euro, which constitutes to 1,4 % of the total sales. The amount of theft is increasing, both by the employees and as a part of the organized groups. Video surveillance in retails has thus become a very important factor in regards to security surveillance and crime prevention. Transaction surveillance is another aspect of great importance in retail providing connection between transactions on the cash register with the corresponding recording from the surveillance camera in order to track accuracy of logging the goods through the cash register. Find out more about these and many other aspects that should be kept in mind in order to prevent theft in retail which is becoming more and more complex at the first international conference Security in Retail – SIGShop 2016 scheduled for 11 February in Zagreb.

SIGSHOP 2016

17 March 2016

2nd Cyber Risk Conference 2016

Cyber attacks and threats are among the greatest risks that the corporate sector in the world is faced with. As a response to that global insurance industry has created and offered a modern insurance product that covers such risks. In order for Croatia to keep up with the European and world trends, our goal is to gather European and local experts in cyber security and cyber risk insurance on March 17 in Zagreb with the objective of exchanging information and experience. The Cyber Risk Conference covers such topics as cyber threats and maintaining cyber security,

CYBER[Ⓜ]risk

cyber insurance, creating insurance policies against IT risk, and finally disaster recovery and business continuity. The conference is meant for Croatian and regional corporate sector and insurance market.

6 – 8 April 2016

**8th Annual International ADRIATIC
CITY SECURITY CONFERENCE – SIGG
2016**

8th
regional
conference
**on urban
security**

ADRIATIC CITY SECURITY **2016**

The conference is organized by Zaštita journal (Tectus Ltd. Company) and Croatian Network of Urban Security Stakeholders (CNUSS) under the patronage of Croatian Ministry of Interior. SIGG 2016 is supported by National Protection and Rescue Directorate (DUZS), Croatian Mountain Rescue Service, Croatian Counties/Cities Disaster Risk Reduction Platform and Association of Cities of the Republic of Croatia.

The Conference is intended for mayors, deputy mayors, cities' safety and security managers, local authorities and government, county managers, deputy county managers, county safety and security managers, directors and management of all businesses that take part in the national security structure, directors and representatives of companies for physical and technical protection, presidents and members of the Council for Prevention and all security managers and experts. The participants will be provided with an opportunity to exchange information and share ideas presented by representatives of major Croatian and European cities.

Expert topics of SIGG conference are:

- European experiences and initiatives
- Prevention for safer cities
- New technologies for safer cities
- Introduction of new legislations
- Liability Insurance
- Environment protection as a part of city security
- Risk management

A regional competition for "The Best Local Community Security Project" will be held within the SIGG 2016 Conference. The competitions collects written entries of projects/programs/activities of interested local and regional authorities aimed at improving security of an individual local community. The competition is open for successfully implemented projects/programs/activities in 2015, as well as for projects/programs/activities in the field of security scheduled for 2016.

20 October 2016

**SIGurnost u
odgojno
obrazovnim
ustanovama 2016**

will take place October 20, 2016 in Zagreb. Objective of the conference is raising awareness of importance and principles of physical and technical protection organization in kindergartens, schools and other educational institutions. The conference is meant for

principles of kindergartens, elementary and secondary schools, vocational associations and other relevant institutions, companies dealing with physical and technical protection, as well as all those in any way involved in security organization of educational institutions.

The Conference will focus on:

- Role of public and private security in educational institutions (situational prevention)
- Role of schools and local authorities in preventing socially unacceptable behavior among minors
- Crisis interventions
- Integrated protection of educational institutions
- Cyber and sexual harassment
- Prevention of peer bullying

EVENTS

19 – 25 September 2016

DAYS OF SECURITY AND PROTECTION 2016

**DAYS OF
SECURITY
AND PROTECTION
2016**

The five-day event is organized under high patronage of City of Zagreb, just like the previous year. The main goal is introducing to the public the services and equipment that is offered with the purpose of increasing their personal and public security, as well as contributing to education of experts in the field of security through international cooperation and experience. Last year's exhibition of security services and equipment and exercises of public and private security services on the main square of Zagreb by Ministry of Defense, Ministry of Interior, Croatian Mountain Rescue Service, Croatian Firefighting Association and companies providing private physical and technical protection, were met with great interest among the public, which is why we are preparing an even more interesting and attractive program for 2016.
